1787 **Headteacher's Report - Autumn**

Governors received and noted a report that provided an update on a number of School developments since the last meeting.

Through Members' questions and discussion, a number of key points were made:

- Attendance – overall School attendance currently stands at 95.4%, compared to an accepted national average of 95%; an explanation of authorised and unauthorised absence was provided; most School unauthorised absence is as a result of holidays taken during term-time; specific reference was made to the differences in recording of attendance / absence for travellers families; the School maintains close monitoring of attendance and appropriate management actions are taken in cases of persistent absence (under 90% attendance); lateness is monitored separately and is not counted as absence; comparisons were made between different local authorities' approaches to fining / prosecuting parents for taking holidays during term-time;
- Staff absence – a relatively small number of staff (mostly non-teaching) have triggered initial attendance management interviews; there are no identifiable trends, but the position is monitored closely on a rolling 6 months window;
- Staffing – the roles of the two newly-appointed KS Leaders continue to develop and gain effectiveness, taking on responsibilities delegated by the Headteacher; there remains difficulties in attracting appropriate people to key non-teaching roles, such as SEN TA (to support pupils with EHCPs – Education Health and Care Plans), - as being experienced by other schools in STAR Alliance; a permanent caretaker is currently being sought (relief caretaker in place);
- Playground accidents (3) – Governors received a verbal explanation of the use of and related controls for the new playground equipment; risk assessments are in place; midday supervisors (MSAs) are employed to monitor playground activity, including use of new apparatus; use is limited to KS2 pupils and at morning break only; a full re-test of the safety surfaces has been undertaken; playground zones / pieces of apparatus have maximum numbers of pupils at any one time; further training is planned for the MSAs; health and safety have been asked to advise on any further measures that can be taken (including introduction of a height restriction)

Additionally, Governors received, noted, and approved two policies, which have been reviewed and are based on model NYCC documents:

- Child Protection Policy; and
- General Complaints Policy and Procedure

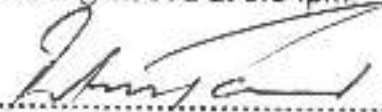

Ofsted Inspection Report (October 2017) – Governors received and noted the Report following the School's one-day inspection on 5 October 2017. Overall, the Report is very pleasing with many very positive statements about the School's performance. Governors congratulated the Headteacher and all staff. Some discussion took place about the School's next steps and the importance of a continual focus on high standards and self evaluation.
