

Sport Funding Report September 2016-July 2017

The Sport Premium grant to support the delivery of PE and sport in primary schools has enabled Athelstan School to continue with its commitment to high quality PE provision.

Athelstan School received £9,000 of Sport premium grant funding from September 2016 until July 2017. We aimed to ensure that all our pupils continued to have access to high quality PE. We continued to make full use of this fantastic funding opportunity and were able to maximise the potential of the funding by ensuring sustainability of the high quality delivery of PE in and out of school. We allocated further funding to provide support and training for teaching staff, to obtain a nationally recognised coaching qualification, across a variety of sports.

Breakdown of Expenditure 2017/2018

	Cost
Balance brought forward from 2015/2016	-£2072.00
CPD	£2845.00
Workshops and Experiences	£1456.00
Inter School Competitions	£1912.00
Resources	£565.00
Swimming	£307.00
After School Clubs subsidy	£200.00
Total	£7285.00
Balance into 2017/2018	-£357.00

CPD

We have had professionally qualified coaches deliver workshops and CPD in school. The Sports Funding Grant has funded CPD and has subsidised a range of After School clubs.

As part of the CPD offered by Premier Sport, they delivered sports in school that teachers felt they were less confident in delivering. These sports included gymnastics and multi kills

For the full, Premier Sports Impact Report. Please follow the link. The report details a whole school pupil assessment breakdown for PE within school and details the number of after school clubs delivered along with average club numbers.

In addition to Premier Sports, coaches from York City Football Foundation worked with the staff and children in Years 4/5/6. The focus of the sessions they delivered were to help children recognise the importance of diet and exercise to lead a healthier lifestyle.

All classes have had the opportunity to observe a range of coaches teaching more unusual sports through our PE experience days. Staff have found the sessions interesting and informative.

Workshops and Experiences

This year we involved the Sports Crew to help decide which PE activities we had in school. We wanted to ensure that the activities were relevant and were accessible within the local area. As part of this we created club links related to the workshops and experiences we had in school. One of our aims for this academic year was ensuring inclusion within our PE, particularly as we have some children with varying disabilities. Raising the profile of Paralympic sports and opportunities was also at the forefront of our plan.

The following workshops took place over the academic year

- KS1 and Sunshines had a skateboarding workshop
- We had a visit from Ayaz Bhuta a Wheelchair basketball Paralympian who competed in Rio Paralympics and many other different Paralympian championships. He led an inspirational whole school assembly and then carried out workshops with children in Years 2-6.
- We were very fortunate to take part in the Yorkshire schools baton race exchange. The children had the opportunity to speak to the cyclists and got a chance to touch the baton.
- Following on with the cycling theme, Phil Bateman, a pro ride cyclist came to deliver workshops to Year 2, 3, 4 and 5 children. The children undertook bikeability training. This event linked in well with the Tour de Yorkshire event that came through the Village of Tadcaster, where many of our pupils visited to watch this race.

PE Week

During PE week on Tuesday 27th June 2017 Adrian Kennedy led a Wheelchair basketball session for some of the classes in KS2. This was an experience picked by the Sports Crew as some of the children had experienced Wheelchair basketball last year. Adrian works at a club in Featherstone and following on from his visit 2 of our children have gone on to join the club. Adam Palmer from Premier Sports led Archery sessions for some of the children in Year 3 and 4.

Inter School Competition

The Children have had the opportunity to take part in a variety of Inter School competitions and festivals as part of the Sport Premium funding. We are part of the Tadcaster Cluster of schools and have had another successful year of well organised fun events. In total this year we have had 118 children taking part in inter school competitions.

Event	Year Group	Number of Children taking part
17.10.16 7 a side Football Tournament	3/4	12 Played an A and B team
3.11.16 Sports Hall Athletics	5/6	30
7.11.16 Dance Festival	1/2	30
16.11.16 Cross Country Festival	3-6	16
8.12.16 Swimming Gala	4-6	8
16.1.17 Dance Festival	1/2	30
30.1.17 Tag Rugby	5/6	10
9.2.17 Sports Crew Training	1-6	18

20.3.17 Athletics Multi Skills	1/2	30
5.4.17 Swimming Panathlon	KS2 SEND	2
27.4.17 Quicksticks Hockey	3/4	14 Played an A and B team
17.5.17 Girls Football Tournament	5/6	10
Multi Skills athletics	1/2	16
17.7.17 Ainsty Sports	3/4	8

For more details of the above events, please visit the PE page on the school website, Inter School competitions.

Sports Crew

Stacey Howard worked with the Sports crew to train them in how to get the most out of their role as sports representatives within our school. The training lasted for 2 hours and within that time; the children explored the school games values and what they mean. More details are shown on the PE page on the school website

Intra house Competitions

Across the academic year, we held three big intra school competitions. The focus was invasion games skills. We ran an A and a B team Round Robin to enable more children to participate. Please see the PE page for more details of the competitions.

Our initial Potted Sports morning was cancelled due to the great British weather however we finally managed to complete the event on Wednesday 12th July 2017. The children worked in their teams made up of children in Years 1-6. The team captains led their team well around all 24 events. The children had a great time earning points for their houses as they completed each station. Our overall winning House was the Red Team.

Club	Autumn	Spring	Summer
Football Skills		18	
Cricket			12
Football	12		
Archery KS2	17		16
Archery KS1	18	20	
Soccer Tots 1			14
Soccer Tots 2			14
Multi sports		14	
Dodgeball		18	

After School Clubs

The school provided a range of after school clubs for children from FS2 To Y6

Swimming

Swimming is a vital life skill that everyone should possess and Athelstan pupils have for many years now been able to access funded swimming lessons through the school's own budget. This year the school funded additional swimming through the PE grant for children who were still not water confident and who could not swim 25 metres. The children walk to the local high school and participate in swimming lessons with a qualified swimming

instructor as part of the PE curriculum. We believe that this has been a valuable experience for our children making them stronger more confident swimmers as they get older.

Swimming Impact 2016-2017

During the academic year 2016-2017, all Year 4 and Year 1 pupils completed a block of ten swimming lessons. Children made a £5.00 contribution to the cost of lessons to support the schools own funding contribution. The PE funding grant was used to support those children who required additional swimming and increased support.

Autumn 2016

31 Year 4 pupils: Of these pupils, 45% began the sessions as non-swimmers. Of this 45%, 64% were able to swim a minimum of 5 metres at the end of their block. Of those who could already swim 5 metres or more at the beginning of the block, 88% of the 17 pupils made significant improvements in their swimming and earned awards to demonstrate this. 4 pupils succeeded in achieving their 25 metre award (previously working at 10 metres). All pupils' confidence in the water developed and the more able swimmers worked on skills such as water rescue, diving and stroke technique.

Spring 2017

Mrs Whitehead's Year 1 class of 21 pupils: Of these pupils, 52% began the sessions as non-swimmers. Of this 52% of non-swimmers, 64% were able to swim a minimum of 5 metres at the end of their block with or without the use of a swimming aid. All children's confidence in the water had increased and those that had feared entering the water at the start of their block of sessions, were doing so more confidently at the end and moving away from the side of the pool. Of those swimmers who could already swim 5 metres or more when the sessions began, 48% of the class, all of them made improvements in their stamina and technique, and 100% of this 33% achieved awards to demonstrate a further development in their skills.

Summer 2017

Miss McCrea's Year 1 class of 21 pupils: Of these pupils, 81% began the block as non-swimmers. Of this 81%, 53% were able to swim a minimum of 5 metres at the end of the block, with or without the use of a swimming aid. As with the previous class, all pupils' confidence in the water improved. Of those pupils who could already swim 5 metres or more, 60% made significant progress in their stamina and stroke technique and achieved awards to demonstrate this.

All pupils who took part in the swimming sessions during the academic year had lots of fun and on swimming days were eager to come to school and to get to the swimming pool.

Future Planned Development

In line with the government's pledge to provide additional funding through sugar tax the school is committed to improving the health and wellbeing of the pupils and staff in school

Continued high quality teaching of PE will be moderated and assessed through lesson observation and feedback ensuring that we strive for Outstanding. The PE co-ordinator will observe teaching in all Key stages. Time will then be built in for each member of staff trained in a sport to have the opportunity to observe their sport.

To ensure opportunities for the least active children to be involved in extracurricular activities. The introduction of structured activity over lunchtime and the implementation of the golden mile whole school fitness tracker will allow us to identify and target the least active children in school.

There will be a lot of emphasis on living a healthy lifestyle by eating well and exercising. Beginning strategies such as walk to school Wednesday- rewards for the most active classes. Change for life activities/top tips to be put on the newsletter fortnightly.

To embed the school games values within all classes.

To target G and T sports stars within our school- providing opportunities to compete against other schools and signposting to local clubs.

To raise the profile of inter school competition-children to gain medals when they represent our school in an event.

Sports crew to become more established within our school- blogging on school games site, writing news updates to parents, increasing participation in sports challenges on the playground.

Continue to develop staff in their teaching and coaching of PE.

To provide inclusive PE training for all staff.
